

The 26th International Tug, Salvage and OSV Convention & Exhibition

29 June - 3 July 2020
Suntec Convention Centre, Singapore

General Information

The delegate and exhibitor lunch area is located to the rear of the exhibition. There will be two entrance/exits to the lunch area, marked clearly on the floor plan.

Delegates and visitors will enter the exhibition through one main set of doors marked on the floorplan. The conference room is located to the left of the exhibition hall, and will access and exit through two sets of doors located near stand number 2.

Exhibiting companies are able to take advantage of a special discounted delegate registration to the ITS 2020 Conference. Please note exhibitors are only able to take advantage of one of these special rate registrations.

Further information will be supplied when making a firm booking for space.

Need more space?

Please note that should you require more space, there is the opportunity to join two or more stands together. Once joined, the partition wall will be removed, creating a larger stand. The cost for joining stands together is based on adding the two rates advertised together to get a total price for the space. Please note that in some cases, two corner positions cannot be joined together, for instance, joining stands 14 & 24.

Water feed and drainage

There are a limited number of positions in the exhibition that have access to water and drainage. Please contact garth@tugandosv.com to discuss your requirements.
