2016 Editorial Programme – Regular Features

*International Tug & OSV, incorporating Salvage News (IT&O)* is published six times a year and each issue is read by a worldwide audience of more than 8,000 senior professionals.

2016 will see the influential ITS Convention & Exhibition return to the US, and the May/June issue will feature a full preview of the event and special coverage of the North American market. Throughout the year, the magazine will continue to deliver news and developments from around the industry, including analysis and interviews with key people in the worlds of towage, salvage and offshore support.

In IT&O you will also find articles from the following range of regular features (special features are shown overleaf):

- **Tug & OSV Deliveries**
  Detailed reports on key new vessels and their equipment together with high quality images, plus many more in Brief

- **New Orders & Contracts**
  Key updates on new vessels and other major deals, including details on where and how they will be deployed

- **Salvage**
  Reports on incidents, inquiries, equipment, law and topical discussions, plus Simon Tatham’s essential column

- **At the Helm**
  The person behind the job title: in-depth and incisive interviews with major industry players

- **Bridge Technology**
  The latest developments in navigation, communication, equipment and training for those in the hot seat

- **Engine Room & Propulsion**
  Specifications and updates on new marine engines, propellers, Z-drives, thrusters and emissions reduction

- **In the Spotlight**
  ITS Club members share memories of past conferences, recall their mentors, and advise new industry recruits

- **Training, Safety & Security**
  Safe tug and OSV operation, incidents and lessons learned, security updates and simulator training issues

- **Hybrid & Green Technology**
  Monitoring the cutting-edge of eco-design and fuel efficiency

- **Ice Class**
  Regular coverage of technological developments in the fast-moving field of Arctic exploration

- **Port & Offshore Operations**
  Taking a close look at harbour developments, LNG terminals, oil & gas installations, wind farms, and more

- **Products & Services**
  Essential round-up of the latest developments in on-board equipment and industry services
